Judges :1. M.Prajith. Grade-V
2. S.Bhuvanesh Kumar. Grade-V

Observers 1. Mrs. R. Chitra, Additional Correspondent
2. Dr.I.John Marlin Inbakumar, Principal

Recycling means turning the materials from waste into something new. It is important, however, not to confuse recycling with reusing, which is where old things, such as clothes, are donated or given a new use instead of being thrown out.

Do you have a heap of cardboard boxes in your place, just lying around, eating dust, waiting to make the inevitable journey to the dump yard? Did you keep them safe all this while thinking you could teach your child about recycling? Are you looking for fun ideas through which your child can convert these waste materials into something useful?

Well, we've got that sorted. Better yet, we could help you spend some quality time with your child, help develop her/his imagination and creativity and teach them about recycling. In PINKZ PUBLIC SCHOOL, We are talking about some good waste material craft that you simply will enjoy with our child.

In Grade-V, all boys and girls involved to bring reinvention from wastes called best out of waste. As a poem from Mrs Bhagya Lakshmi, who stands as a class teacher of Grade-V that is given below.

Recycling is...

A ravenous animal,

eating junk,

then shoot out out sort new bits and pieces.

It is lay an old container

into a machine and watching it

change into something new.

Recycling is...

renewing a energy

a bunch of creative talents

smashing down today's waste and

turning it into tomorrow's Reinvention.

Best out of Waste activity was carried as life skill activity by Grade- V, Section-C Children.

Invitations are regular, but an invitation in a banana leaf looks special right. Yes,

M. Kishorekumar S. Nirvindha and of Grade V invited Mrs. R.Chitra, Aditional Correspondent

and Dr.I.John Marlin Inbakumar, Principal with wordings scripted on a banana leaf.

Our Principal and Our Additional Correspondent receiving the invitation with a bright smile and eagerness to attend the show. Pinkz banner was set on to start up the Activity. Here the kids showed their talents in art too..! S. Mokshitha of Grade-V and the Coordinator of this activity initiates the programme with a welcome speech and also invites the special judges who looks really tuff and gigantic in their judgment.

Although the season of Christmas is gone here this little one reminds us about the Christmas tree made out of thrown husk of groundnuts. I need no glasses..! Here I have turned out the unused CD's as jewelry to my eyes. Looks cool right Ha...Ha...Ha... Wondering what is it ?? I'm using the coconut sticks to build a strong chariot so that once in a while I can carry out my school on this pretty chariot on a merry go round.

Sssshh !! Don't disturb them the little kids busy in allotting marks with a wonderful coat on their shoulders just to show us "We Are The Young Judges".Uffoo ...!!
