

ORGANIZING SPORTS

COMPETITION IN PRIMARY SCHOOL

VENUE: Pinkz Public School

GRADE: II

SEC:B

Sports

*Sports inspire us,
to compete.*

*Winning over losing,
is much more sweet.*

*We do it because,
we love the game.
Life without sports,
would not be the same.*

*Plenty of water,
we must constantly drink.
As we push our bodies,
to their very brink.*

*Sports bring out,
our inner drive,
To make the play,
we often dive.*

*We sacrifice everything,
for our team,
because a championship,
is our only dream.*

Sport helps children to develop physically socially and mentally enabling them to better cope with the demands of school life. Sports build good habits, confidence, and discipline. They make players into community leaders and teach them how to strive for a goal, handle mistakes, and cherish growth opportunities.

LEMON and SPOON:

B.Hashinimithun, R.Vibishika, K.R.Thejeshwini, J.Janani are the proud participants of **LEMON AND SPOON RACE**

The lemon and **spoon** race is played by walking while balancing a **lemon** on a **spoon** which is held by the mouth. It is easy to play a game that is coupled with fun...

I'm sure almost all of us went back in time when we were in school and how it would just mean a lot of fun. Now the students here are ready for **LEMON** and **SPOON** race.

Sack Race

Sack Race is a fun game that combines sports and maths. Here the students are ready to hop and hop and hop

The twist in this game is that you cannot move forward until you answer an ARITHMETIC question correctly. For each step forward, the Coordinator will shoot a question and only if the answer is right, the player can move a step ahead.

Balloon buster

B.Harshinimithun,L.Tanishka
,J.Janani,K,R..Thejeshwini
are eagerly showing their
talent in bursting the
balloon.

Tup tup tup ... here are the little ones to burst the colourful balloons. Right time to exhibit the energy and force to burst them.
