The Mighty Ocean

1. Humans aren't the only creature that needs winter vacation.
Think of an animal or mammal which takes winter vacation.
2. Too much sunlight damages our skin. Think about coral which lives in shallow ocean waters. How do they survive?
3. Do you know there are rivers and lakes beneath the ocean. But how they are formed?
4. The ocean can actually sing. But how is it possible?
5. Do you think space is home to all of our black holes? Think again.

Fact of the day:

More than 90% of the trade between countries is carried by ships and about half the communication between nations use under water cables.

Term of the day:

Tsunami:

Series of waves caused by earthquake or undersea volcano eruptions.
