

Social Science Club Report - 2

Date : 27 November.2018.

Place: Pinkz

Campus

Social science is a subject which offers a systematic study of man in relation to his society. This subject gives functional knowledge of history, geography, economics, civics etc. In an integrated manner and inculcates such abilities, children to become useful citizens of society. Social science club is an integrated party of the co-curricular activities of social science. This club has a great role in the study of this subject. This clubs should guide the learning activities which extended beyond classrooms. Club members along with their teacher must participate in field trips, exhibitions, quiz competitions, surveys etc. the co-operation of all social teachers and students are needed for a systematic and effective functioning of the club.

The second session of Asoka club held on 17 December 2018 in programme hall. There we conducted social science exhibition and various points discussed along with principle and club members these points as follows:

Objective.

- It will create interest and makes the students active in the subject
- It will encourage intellectual curiosity among the student.
- It will provide practical knowledge of the subjects.
- It create power for thinking and fosters imagination and creativity among the students.
- Club activities inculcate various democratic values and qualities like tolerance, equality, freedom and leadership etc. among the children.

Activities of social science club

The club organizes different activities:

CHILDREN PARLIAMENT ELECTION:

- First time in India, club introduced the online voting system

- Students actively participated
- Elected the parliament members in different categories

The Students' Parliament meets once a month and discusses important issues such as keeping the campus clean, health related issues. The members explain the importance of keeping the campus clean and following healthy habits to other students. They create awareness on keeping the toilets clean by watering them after using them, washing hands after using the toilets, washing hands before taking food, segregating the garbage as bio-degradable and non-bio-degradable wastes, using the vegetables, fruits after washing them in clean water.

- Putting up of social science exhibition
- Preparation of project report on different topics
- Decoration of display boards on current issues and other topics.
- Presentation of mock parliament and skits on burning topics
